

Annual Report

Fiscal Year
2017 – 2018

Dean's Message

Dear UCLA School of Dentistry Community,

Recognizing past achievements provides the opportunity to reflect upon how much we've grown in the last year. In our fiscal year 2017 – 2018 annual report, we recognize the moments from July 1, 2017 through June 30, 2018 that we're most proudest of.

One of the most notable achievements was the accreditation visit in February, which we passed with flying colors.

We put the finishing touches on Our Strategy for Excellence 2023 – a strategic plan which offers a road map of our vision to lead and transform how dentistry is taught and practiced. Supporting our student doctors is among our highest priorities. We administered more than \$3.6 million in financial aid this past fiscal year; and we awarded the inaugural Dr. No-Hee Park awards for Excellence to three deserving students. We received a record number of contracts and grants to support our transformative research projects – \$26.3 million to be exact – a 47 percent increase compared to five years ago.

Providing quality, affordable dental care is instrumental to our mission. Our student dentists, residents, faculty, and staff provided more than 150,000 patients visits across 11 different locations. We also launched an exciting new program – our Community-based Clinical Education (CBCE) program – with help from a transformative \$1.5 million grant from Delta Dental of California.

Of course, we would not be where we are today without the support from you, our alumni and friends. Thank you to everyone who gives back to our school.

I encourage you to read through the entire report to learn more about what sets UCLA Dentistry apart from the rest.

Sincerely,

A handwritten signature in black ink that reads "Paul H. Krebsbach". The signature is fluid and cursive.

Paul H. Krebsbach, DDS, PhD
Dean and Professor

Education

Accreditation Committee Gives UCLA Dentistry A+

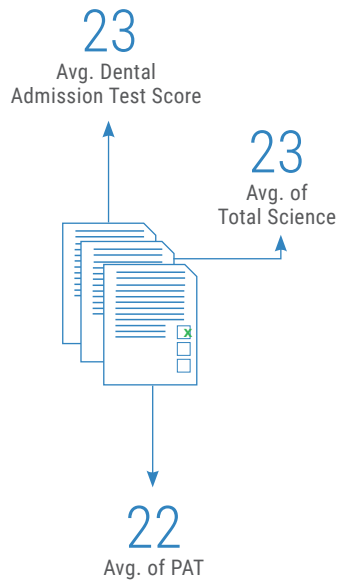

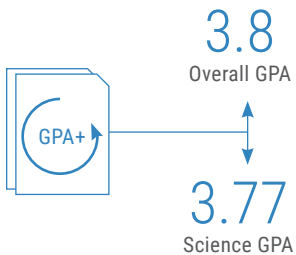

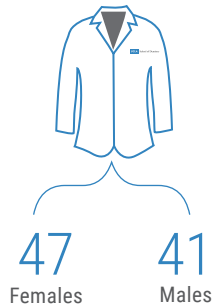

At the end of February, UCLA Dentistry welcomed 24 site visitors from the Commission on Dental Accreditation (CODA) for two and a half days of evaluation of our pre-doctoral programs and 10 of our 14 postgraduate programs. In addition to our pre-doctoral program passing the site visit, all of our postgraduate programs graded out exceptionally well, so much so that we were informed that for the first time in CODA history all graduate programs passed the accreditation process without a single recommendation or suggestion.

CODA serves the public and profession by developing and implementing accreditation standards that promote and monitor the continuous quality and improvement of dental education programs. The success of this year's site visit was due to a tremendous amount of preparation by our faculty, staff, students, and alumni and friends. The dental school passed as a community, with teamwork and professionalism.

[Mission to Space Takes Research to a New Level](#)

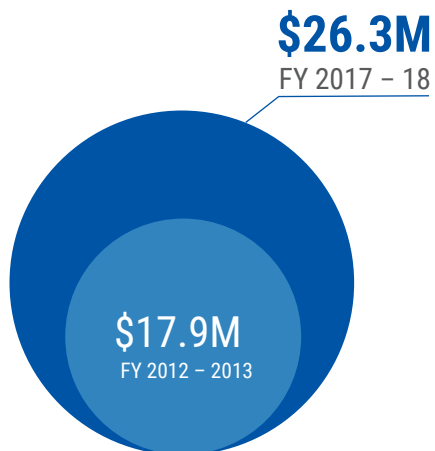

On July 3, 2017, a cross-departmental team of UCLA researchers made space history with the completion of a mouse-based mission, which could potentially benefit the 200 million people worldwide living with osteoporosis. A group of 40 mice were sent into space, where they spent roughly 30 days at the International Space Station. Prior to launch, the rodents received an experimental drug that aims to prevent bone loss. Half of the mice returned safely to the U.S. where they continued to receive the experimental drug. The rest remained at the space station to receive additional drugs.

The microgravity environment of space leads to significant and rapid bone loss similar to the effects of osteoporosis and other bone-wasting diseases. The mission, the result of a collaboration between UCLA, NASA and the Center for the Advancement of Science in Space, has significant translational potential for new insights into the prevention of osteoporosis.

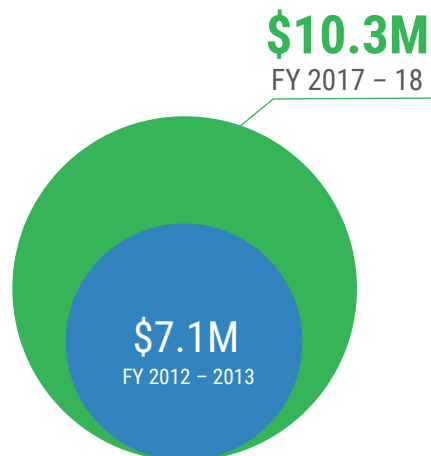

TOTAL CONTRACTS & GRANTS RECEIVED IN FY 2017 – 18:

*47% increase
in 5 years*

TOTAL NATIONAL INSTITUTES OF HEALTH GRANTS RECEIVED IN FY 2017 – 18:

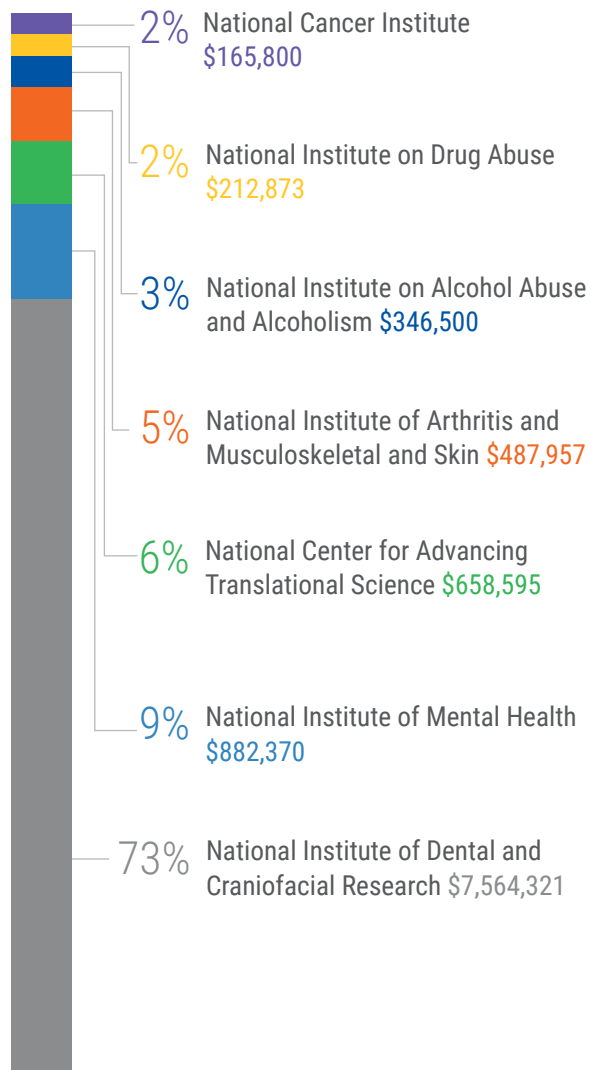

*45% increase
in 5 years*

In the last five fiscal years, the UCLA School of Dentistry has continued to be among the top institutions to receive funding from the National Institutes of Health.

Grants by Agency: National Institutes of Health

\$10,318,416 Amount received in
Fiscal Year 2017 – 2018

Click the title to view the full article online.

Research funded by the National Institutes of Health and other sources has led to the following breakthroughs and oral health advancements in the 2017 – 2018 fiscal year:

[Researchers Discover Gene that Controls Bone-to-Fat Ratio in Bone Marrow](#)

In an unexpected discovery, researchers found that a gene previously known to control human metabolism also controls the equilibrium of bone and fat in bone marrow as well as how an adult stem cell expresses its final cell type. The findings could lead to a better understanding of the disruption of bone-to-fat ratio in bone marrow and also point to the gene as a promising therapeutic target in the treatment of osteoporosis and skeletal aging. (Journal: *Cell Stem Cell*, UCLA Dentistry authors: Dr. Cun-Yu Wang and Dr. Bo Yu)

[Researchers Develop Synthetic T Cells that Mimic Form, Function of Human Version](#)

Researchers developed synthetic T lymphocytes, or T cells, that are near-perfect facsimiles of human T cells. The process used to create the artificial cells could be a key step toward more effective drugs to treat cancer and autoimmune diseases and could lead to a better understanding of human immune cells' behavior. Such cells could eventually be used to boost the immune system of people with cancer or immune deficiencies. (Journal: *Advanced Materials*, UCLA Dentistry authors: Dr. Alireza Moshaverinia and Dr. Ben Wu)

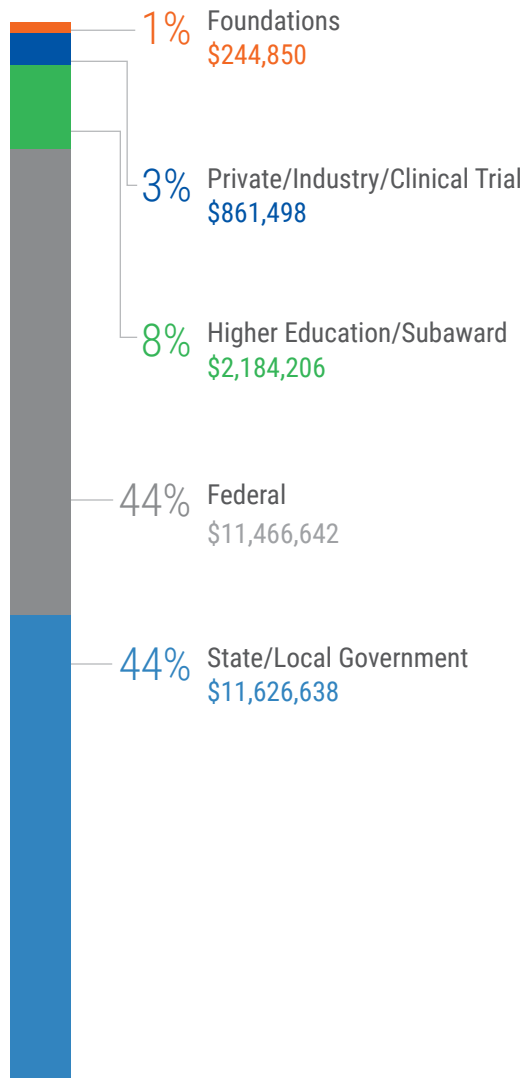

[First Description of mEAK-7 Gene Could Suggest Path Toward Therapies for Cancer, Other Diseases](#)

Researchers are first to characterize the mechanism of the human equivalent, which they call mammalian EAK-7, or mEAK-7. The team found that mEAK-7 regulates the molecular process, or "metabolic pathway," that dictates cell growth and human development. Findings could be a preliminary step toward new therapies that would work by slowing or blocking mEAK-7's molecular process, which in turn could potentially control the spread and growth of the cells responsible for disease. (Journal: *Science Advances*, UCLA Dentistry authors: Dr. Paul Krebsbach and Dr. Jin Koo Kim)

Grants by Funding Source

\$26,383,834

Amount of contracts & grants received in Fiscal Year 2017 – 2018

Click the title to view the full article online.

[Researchers Discover Cellular Messengers Communicate with Bacteria in the Mouth](#)

The discovery revealed clear evidence that cellular messengers may be able to communicate with bacteria in the mouth and that those messengers could even regulate the growth of oral bacteria responsible for diseases, such as periodontitis and meningitis. (Journal: *Journal of Dental Research*, UCLA Dentistry authors: Dr. David Wong and Dr. Feng Li)

[NIDCR Awards \\$3.5 + Million to Study Increasing Parent Oral Health Habits to Prevent Children's Tooth Decay](#)

Researchers will conduct a 3-year trial to test various incentives that promote caregiver behaviors to prevent caries in young children and evaluate cost-effectiveness of the intervention. The project will enroll underserved, low-income Hispanic/Latino families with children 0-5 years of age in Early Head Start at affiliated preschool and day care sites in Los Angeles County. (Dr. Francisco Ramos-Gomez, co-PI on the grant & professor of pediatric dentistry)

[Public Health Dentists Issued Recommendations on Improving the Integration of Oral Health Care and Primary Care](#)

Oral health care and primary care have traditionally been considered separate. In a commissioned paper, public health experts argued that additional work is needed to integrate the two to provide more comprehensive and improved access to care. The paper was written to influence policymakers, clinicians, educators, and health researchers. (Journal: *National Academies of Sciences, Engineering and Medicine's Roundtable on Health Literacy*, UCLA Dentistry author: Dr. Kathryn Atchison)

Patient Care:

BY THE NUMBERS

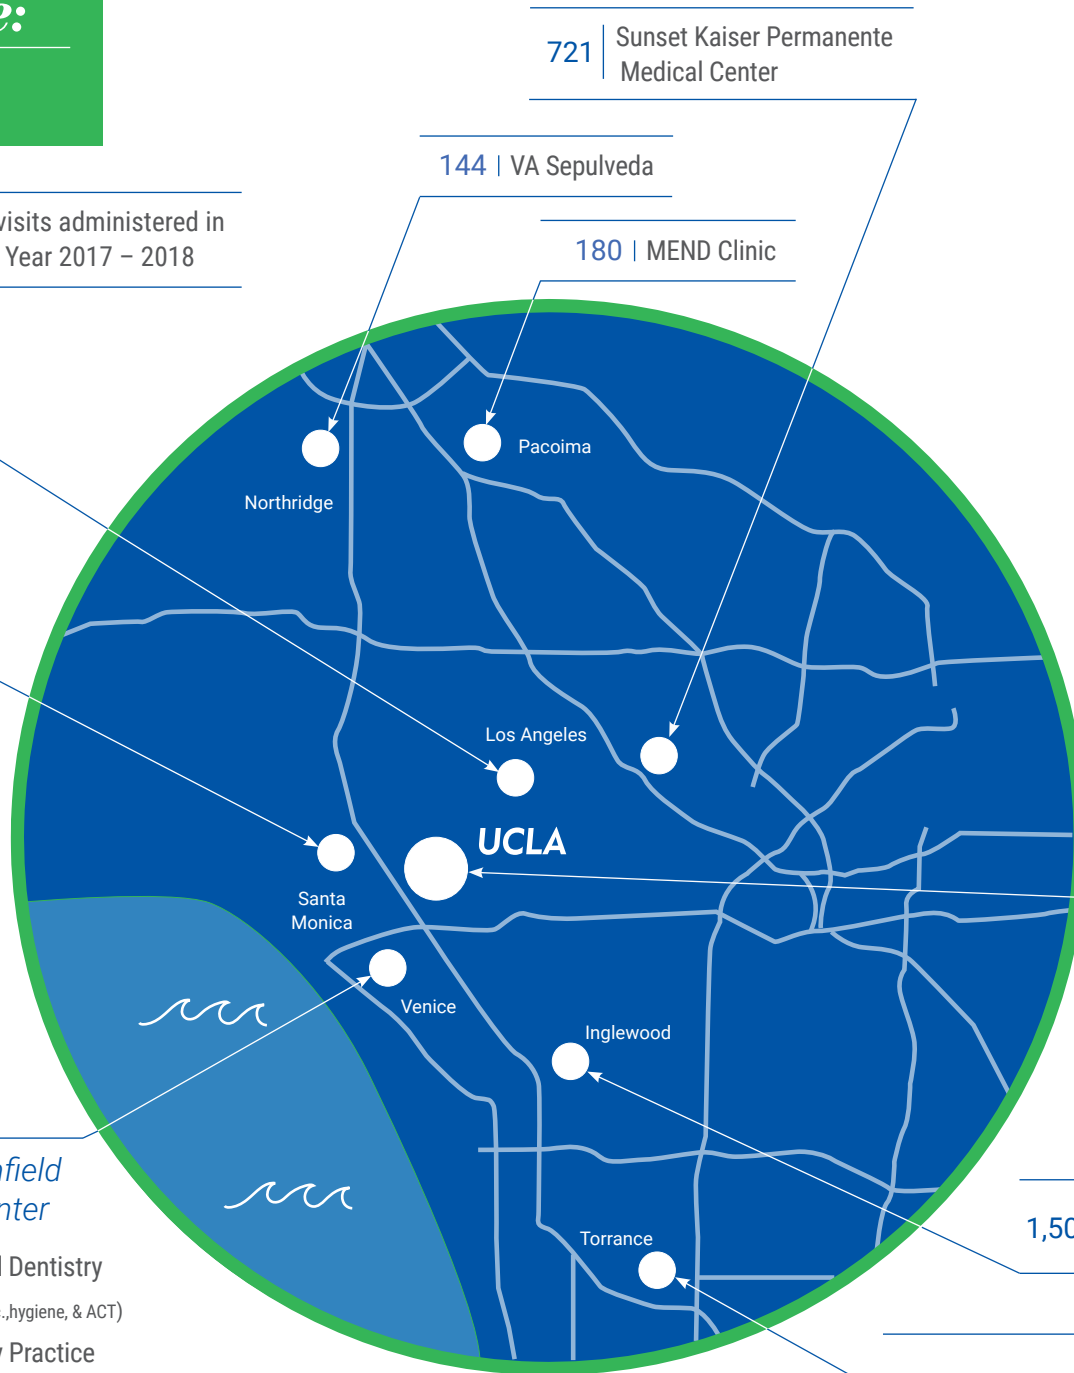

150,804 Total visits administered in Fiscal Year 2017 – 2018

Community Outreach

 [Click the title to view the full article online.](#)

School Receives \$1.5 Million for Community-based Education

Treating vulnerable populations throughout Southern California is integral to our vision of providing students with learning experiences in diverse clinical care environments. With a generous donation from Delta Dental of California, the dental school launched a Community-based Clinical Education (CBCE) program on March 1, 2018. The \$1.5 million grant from Delta Dental of California, the state's largest dental benefits provider, supports fourth-year dental students, overseen by credentialed dental practitioners, to treat Medicaid recipients or people who struggle with access to care. The two key health care delivery models that the school is affiliating with are federally qualified health centers, which cater to underserved populations; and practices that focus on people living at or below 200 percent of the federal poverty level.

CBCE Pilot Program Numbers

Approximate results of the first cohort of 34 students, or one-third of the graduating class, who treated patients during a 10-week pilot program, launched on March 1, 2018. The pilot program is a spring board in to our evolving curriculum.

“[The CBCE] rotation has rekindled my purpose in dentistry. I enjoyed going to work every morning and being a part of an amazing team that improved lives. Everyday I was eager to see patients and learn something new.”

Wayne Gonzales, Class of 2019

Community Outreach

More L.A. Smiles Launches to Transform Oral Health Services

The UCLA Dental Transformation Initiative kicked off their pilot program, "More LA Smiles," on May 21, 2018. A year earlier, UCLA was awarded a contract from the CA Department of Health Care Services to serve as the lead entity for a Los Angeles-based Local Dental Pilot Project as part of the states Dental Transformation Initiative (DTI).

The DTI collaboration brings together a consortium of key Los Angeles stakeholders, including Medi-Cal and Denti-Cal health plans, dental and medical professional provider organizations, and community-based organizations dedicated to improving oral health services for 500,000 Los Angeles County children with Medi-Cal/ Denti-Cal coverage.

A Resource for the Community

Results of our Health Fairs Selective course from July 1, 2017 through June 30, 2018. Our students and supervising faculty were responsible for screening 1,200 patients, applying fluoride to 900 adults and children in four counties at 24 outreach events.

Inaugural Dr. No-Hee Park Awards for Excellence Given to Three Top Third-year Dental Students

The 2017 – 2018 fiscal year marked the first time that the No-Hee Park Awards for Excellence were given out. They were awarded to three third-year dental students exhibiting excellence in the art and science of dentistry, research, and leadership. The scholarship campaign, which raised over \$1.2 million for endowed student support, honors Dr. No-Hee Park's extraordinary leadership and commitment to UCLA Dentistry during his 18 years of service as dean.

UCLA Dentistry wishes to gratefully acknowledge the Scholarship Award Campaign Participants (pictured here from left to right): Mr. Bob Wilson, with honoree Dr. No-Hee Park and his wife, Mrs. Yuly Park, Mrs. Shirley Shapiro, Dr. Naomi Ellison, Mr. Ralph Shapiro, and Mr. Jae Min Chang. Not pictured: Dr. Thomas Rauth and Dr. Ronald Mito, and over 100 alumni and friends from UCLA Dentistry who gave to the campaign.

Honor Roll of Donors 2017 – 2018

The UCLA School of Dentistry wishes to recognize and thank the following individuals, corporations, and foundations whose extraordinary generosity and exemplary vision enables us to pursue our mission of excellence in teaching, research, patient care, and public service. Each gift is an investment in the future of the oral health profession.

Donors of Restricted Gifts & Private Grants

Restricted gifts and grants are directed at the donor's request to a specific departmental priority, project, or initiative. Through their generosity, the donors below have made lasting contributions to the School of Dentistry by giving to endowed chairs, student scholarships, faculty research, patient care initiatives, and academic centers.

Key

This honor roll lists all philanthropic commitments made to the School between July 1, 2017, and June 30, 2018. We generously thank those who have given before and after these dates. Donors' academic degrees (at the Master's level and above) are noted as recorded in the UCLA External Affairs database. Donors' UCLA School of Dentistry degrees (DDS, MS in oral biology, PhD in oral biology, and certificates) are recognized by the inclusion of the class year in which they were conferred.

The Office of Development makes every effort to ensure the accuracy of this report. If you note an error or omission, please accept our sincere apologies and notify us by writing to the UCLA School of Dentistry Development Office, 10833 Le Conte Avenue, CHS 53-038, Los Angeles, CA 90095-1668; calling (310) 206-6063, or sending an email to development@dentistry.ucla.edu.

Apollonian Society Donors 2017 – 2018

In 2004, the UCLA School of Dentistry's Apollonian annual fund was transformed into the membership-based Apollonian Society, which is dedicated to enhancing the student experience and the reputation for excellence of the School. Since this transformation, the Apollonian Society has made great strides, funding innovative projects, strengthening morale among students, and collectively contributing over \$3.5 million to the School. In the 2017 – 2018 fiscal year, the Apollonian's annual fundraising campaign received \$230,812 in gifts and pledges from its loyal supporters and new donors. We gratefully thank those who have given.

Key

Apollonian Society Founding Members are noted in **bold** text.

Silver Circle Members are noted in *italics*.

Corporate Benefactors are noted with an *

Benefactors (\$10,000 and above)

Stephen Y. Lee, DDS '75 & Tracy Lee

Apollonian Society Welcomes First-ever Co-Chair for Northern California Region

At the start of the 2017 – 18 fiscal year, Dr. Morris "Mo" Budak, Class of 1974, was recruited as the first-ever Apollonian Society Co-Chair for Northern California and currently serves alongside Dr. Ron Mito. Dr. Budak has worked tirelessly to establish stronger alumni giving in Northern California for Bruins who wish to engage with the School and learn how to support the next generation of student dentists.

Since graduating from the UCLA School of Dentistry in 1974, Dr. Budak moved back to Northern California where he established a practice in esthetic and restorative dentistry. He has since retired and lives in Sunnyvale with his wife, Renee.
